

# PC727 COIN OPERATED POPCORN VENDING MACHINE

 High Performance is the Standard in Our New **FRESHPOP™ Series!**

## Smart System Logic® Control Board

Gives the operator up to the minute accurate information on accumulated vends with a time/date stamp on each sale allowing the operator to analyze the Freshpop's™ busy cycles. Offering self-diagnostics with line voltage readout display. Alerts operator to power outages and last scheduled service.

## Consumer Friendly

Our new redesigned instructional panels are based on internationally recognized pictorials making the machines easy to use in any language.

## Optically Download Vend Information

Our new logic board has an optical port that can download a host of valuable statistics and information onto a Palm Pilot® or Windows® based laptop PC.

## Fast Vend Times

Our new redesigned hot air popping chamber delivers reliability and speed minimizing your customer vend time. Our new quick adjust portion control allows the operator to custom adjust the amount of popcorn dispensed in each serving.

## Security and Peace of Mind

With our new easy fill slide out reservoir and separate locking cash box employees can refill the corn reservoir but have no access to the cash. All vends are recorded on an externally viewed, tamper proof non-resettable digital counter.

## Durable Construction

18 gauge cold roll galvanized satin coat steel and powder coated paint for maximum durability. Top quality UV resistant vinyl graphics. Tough lexan catch tray and popcorn dispensing chute.

## Quick Service and Fill Time

Extra product is stored on site in lower cabinet eliminating trips to operator's service vehicle.

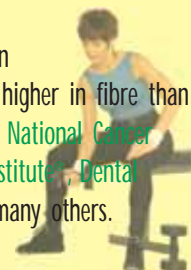

## The Best Popcorn in Town!

Offering your customers a healthy snack alternative that allows them to customize their popcorn just the way they love it! Air popped popcorn is higher in fibre than bran and is recommended by the **Cancer Society®, National Cancer Institute®, Heart and Stroke Institute®, Diabetes Institute®, Dental Association®, Weight Watchers International®,** and many others.

Nearly everyone loves popcorn!

With low product cost and high customer appeal, popcorn is the largest and fastest growing segment of the snack food industry.
